

CITI BIKE

Presented by Lyft

WHAT IS CITI BIKE?

Originally Launched:

May 2013 in New York City, NY

Purpose of Citi Bike:

Fun and efficient shareable transportation option

How it Does it Work?

Dock. Unlock. Ride. Return.

The Convenience:

Accessible, eco-friendly, healthy, convenient, affordable

THE MAIN ISSUES

Unreliable Service & Poor Maintenance

- Broken Bikes
- Empty Stations
- Slow Repairs

Lack of Proper Distribution

- Balanced Bikes for Every Borough
- "Too Many Here, None There."

Variety of Competitors

- Create Brand Loyalty
- Incentivize Customers

THE RELAUNCH

CITI BIKE REVOLVE ***"SMARTER, FASTER, SMOOTHER"***

REWARD AND RE-DOCK

- **Citi Bike users earn rewards for dropping bikes at less crowded docks**
- **App notifications guiding users to nearest docks**
- **Improves distribution, beats competitors, and reduces maintenance tasks**

TOTAL ADDRESSABLE MARKETS

Commuters

3.6M daily

Tourists

62.2M annual visitors

Delivery Workers

75,000 active delivery workers

FINANCIAL STANDING OF TARGET CUSTOMERS

Annual Members

- Middle- to Upper-middle income earners
- Already spend \$127-\$200 yearly on memberships

Casual Users

- Tourists & students
- Price-sensitive
- Respond well to flexible value bundles & packages

Delivery Riders

- Use bikes daily
- Prioritizes durability, availability, & cost efficiency
- Earn \$10-\$15 hourly

KEY COMPETITORS

Lime

- Excels in spontaneity and short, casual rides
- Lacks Citi Bike's station density and local reliability

Revel

- Focuses on speed and convenience
- Citi Bike offers a safer, more scalable experience

Revel

Bird

- Excels in quick, low-commitment rides
- Struggles with logistics and lacks deep NYC penetration

VEO

- Inclusive vehicles and regulatory cooperation
- Confined to a small area of NYC, yet to scale

CITI BIKE ADVANTAGES

- **Dense Station Network:** Largest in NYC
- **Local Branding:** Synonymous with NYC bike culture
- **Trusted with NYC's DOT:** City-backed
- Sustainability-first image with strong ESG appeal for investors

TIMELINES TO MARKET

Phase 1:
Research & Plan
(0–3 months)

- Finalize technological requirements
- Conduct focus groups & pilot testing in select neighborhoods
- Secure funding and partnerships

Phase 2:
Develop & Test
(4–9 months)

- App updates coded and tested
- Infrastructure upgrades
- Begin station electrification and fleet expansion

Phase 3:
Soft Launch
(10–12 months)

- Limited rollout of new features in select zones
- Marketing campaigns targeting early adopters
- Monitor performance and gather feedback

Phase 4:
Full Launch & Scale
(12–18 months)

- City-wide deployment
- Expansion of rewards program & increased incentives
- Optimization based on user engagement

DEVELOPMENT & PRODUCTS

Rewards & Re-Docking

Integrate rewards system within the Citi Bike app

App Notification & Optimization

GPS-based app guide users to less crowded docks

Improved Distribution & Maintenance Reduction

Fleet management logistics for redistribution of bikes

FINANCIAL INSIGHTS

CITI BIKE MARKETING

Leveraging our motto:

- Post flyers around the city
- Promote: Summer
- Highlights incentive program
- Integrate in social media

CITI BIKE REVOLVE
"SMARTER. FASTER. SMOOTHER."

EARN REWARDS

**REDISTRIBUTE BIKES.
IMPROVE NEW YORK**

- Drop off bikes at less crowded docks
- Get notified of docking stations with the app
- Help balance bikes across the city

PARALLEL & SUPPORTING TECHNOLOGIES

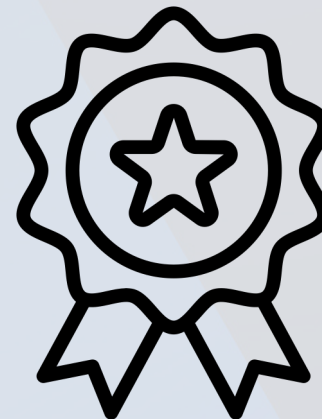

Smart Docking & Predictive Maintenance

- Reduces overcrowding
- Lowers maintenance costs
- Improves user experience

Rewards System

- Increases user engagement & retention
- Reduces manual redistribution costs

Advanced E-Bike Fleet

- Keeps more bikes operational
- Reduces labor costs
- Lowers downtime for e-bikes

TECH COMPONENT

STATION REBALANCING

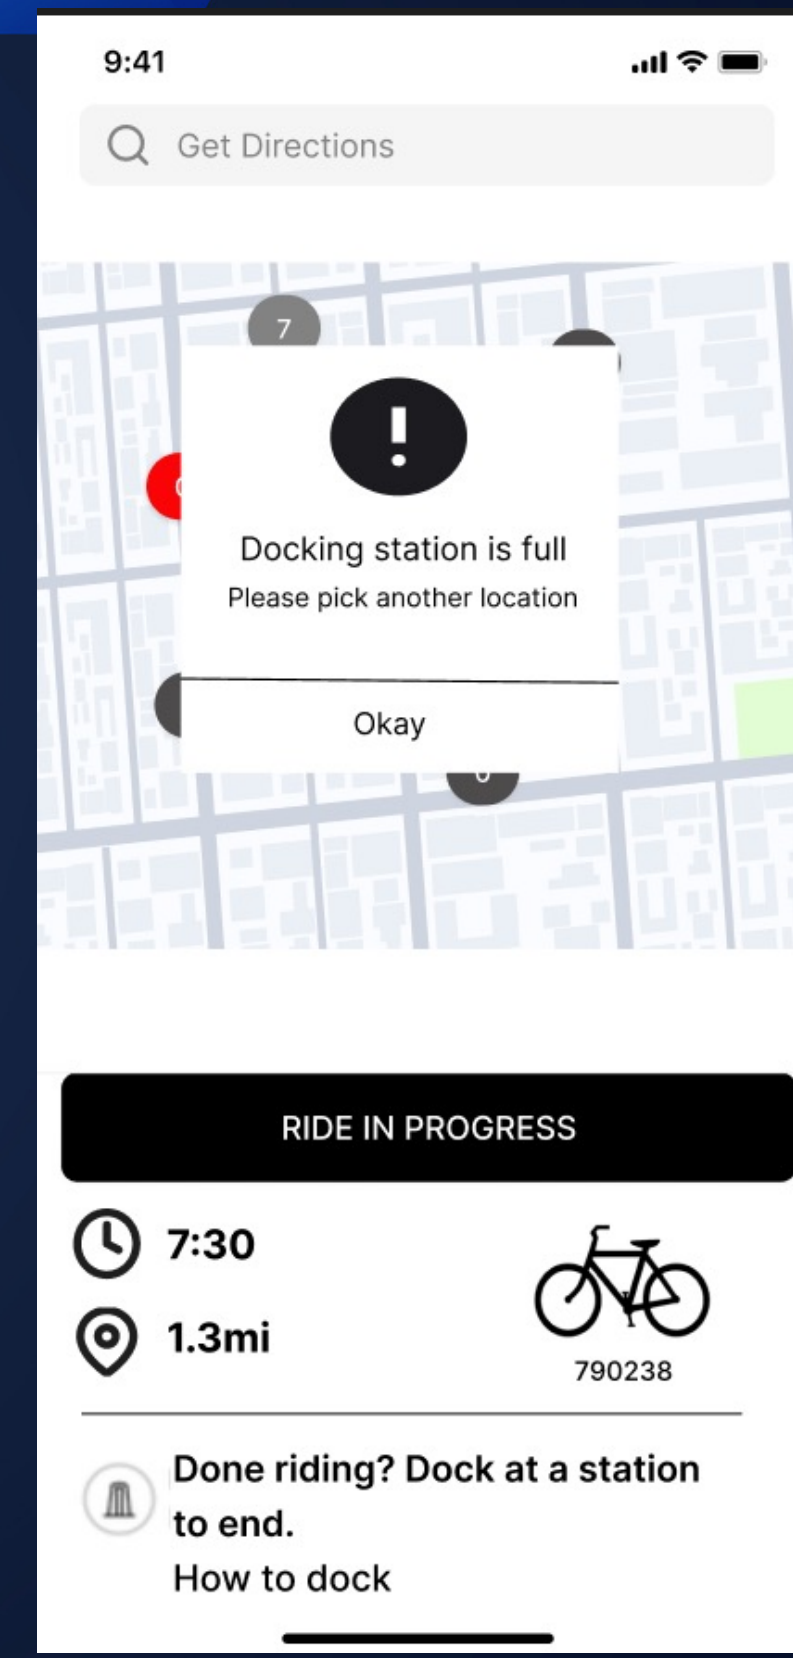

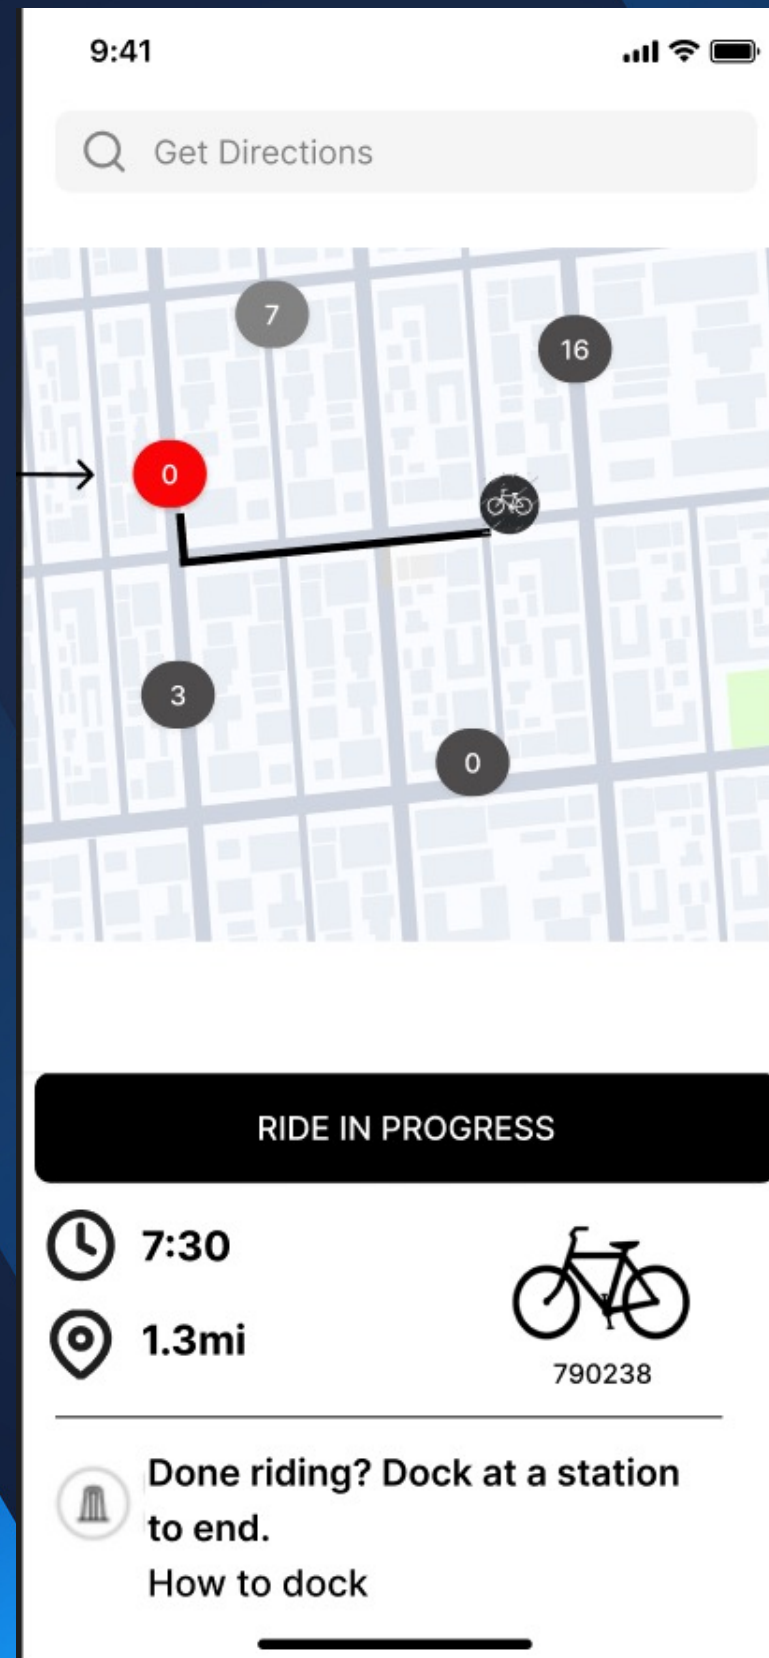

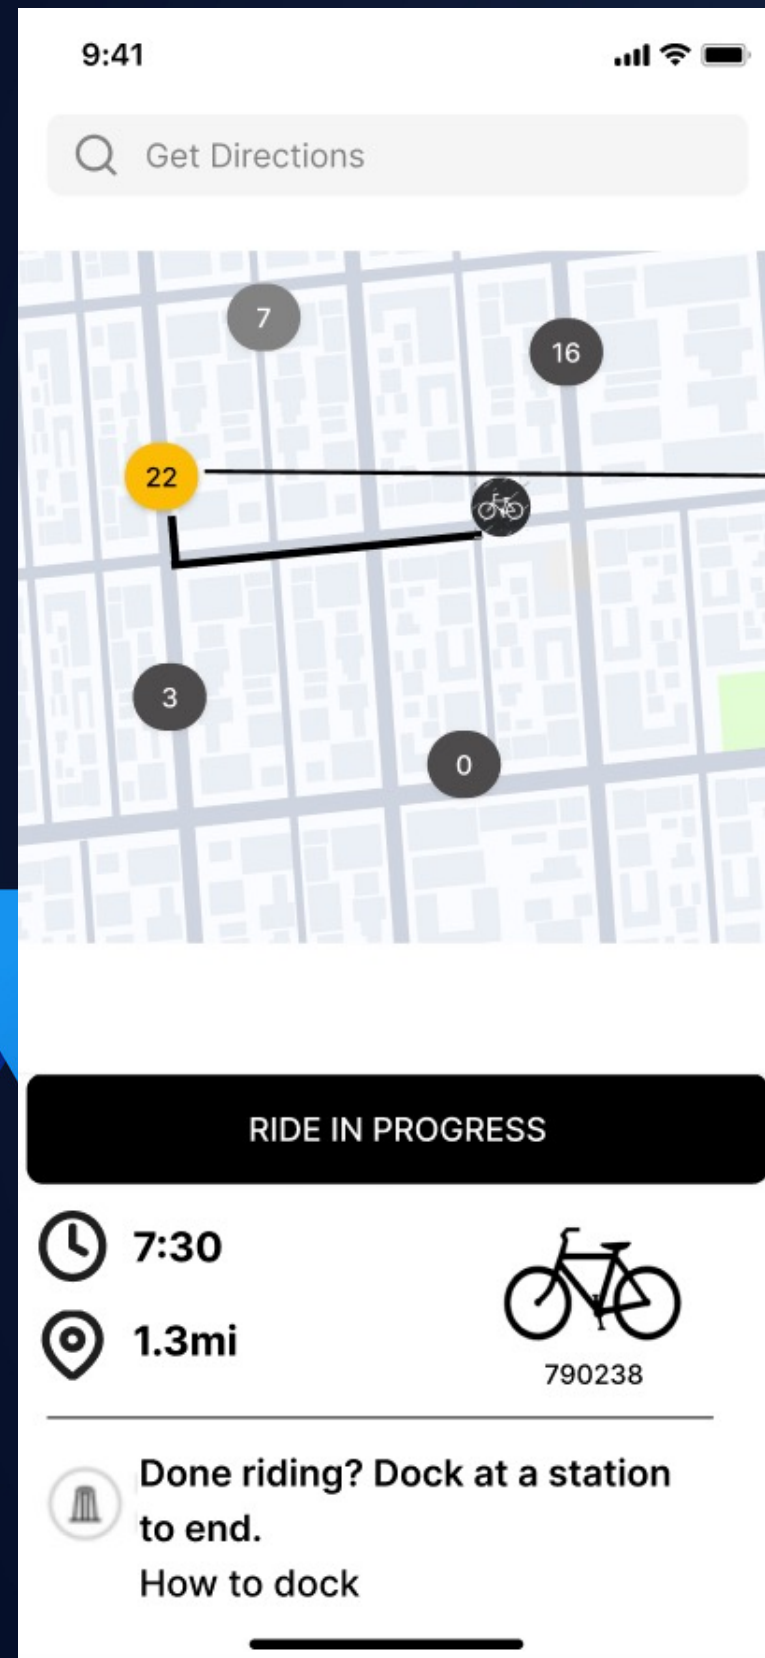

Our Goal: Ensure that users always have a bike to ride or dock to use

Reward System:

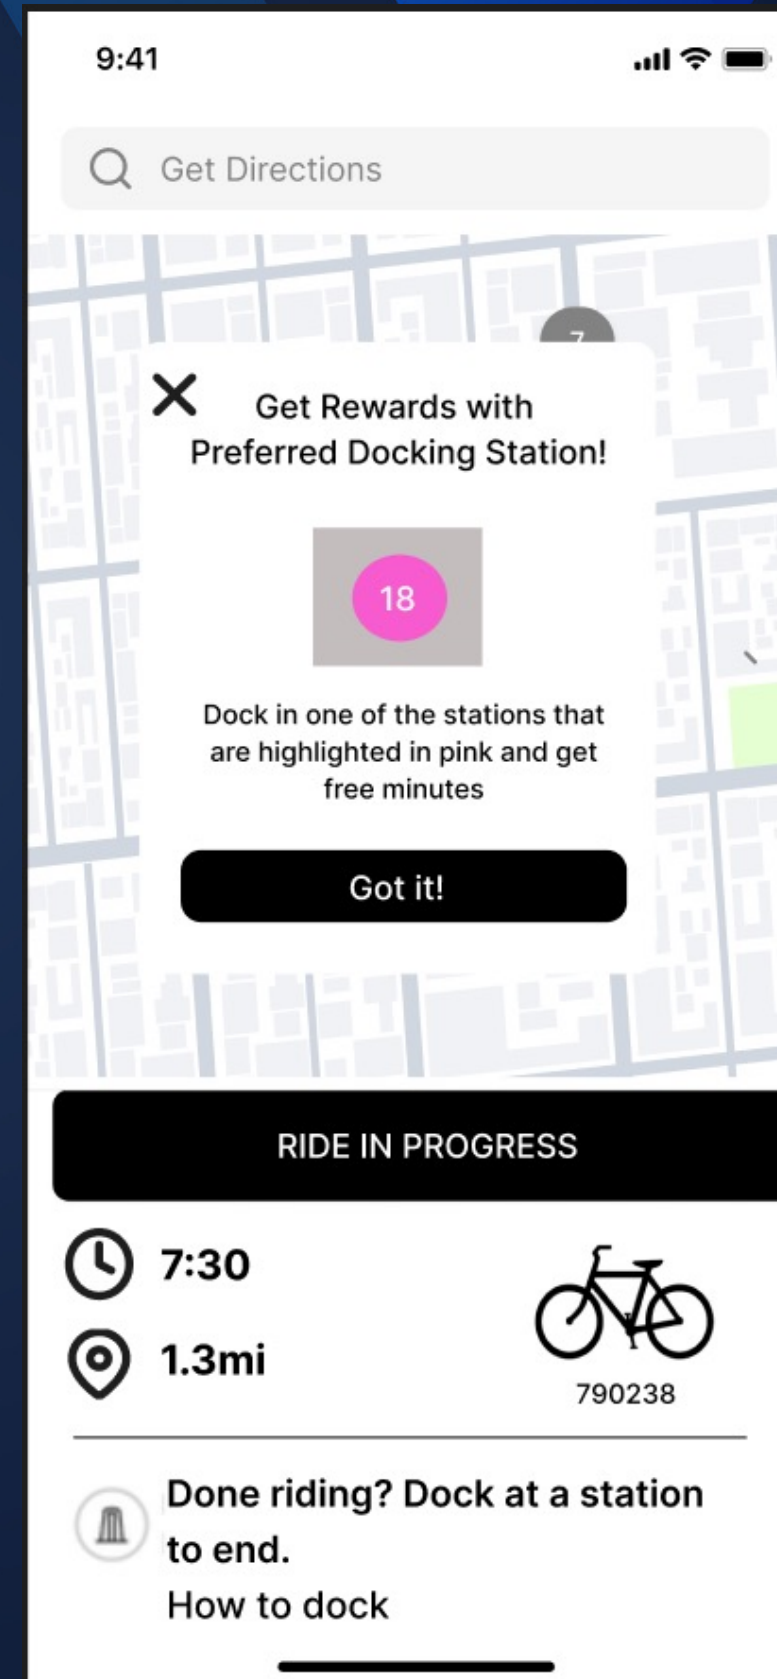

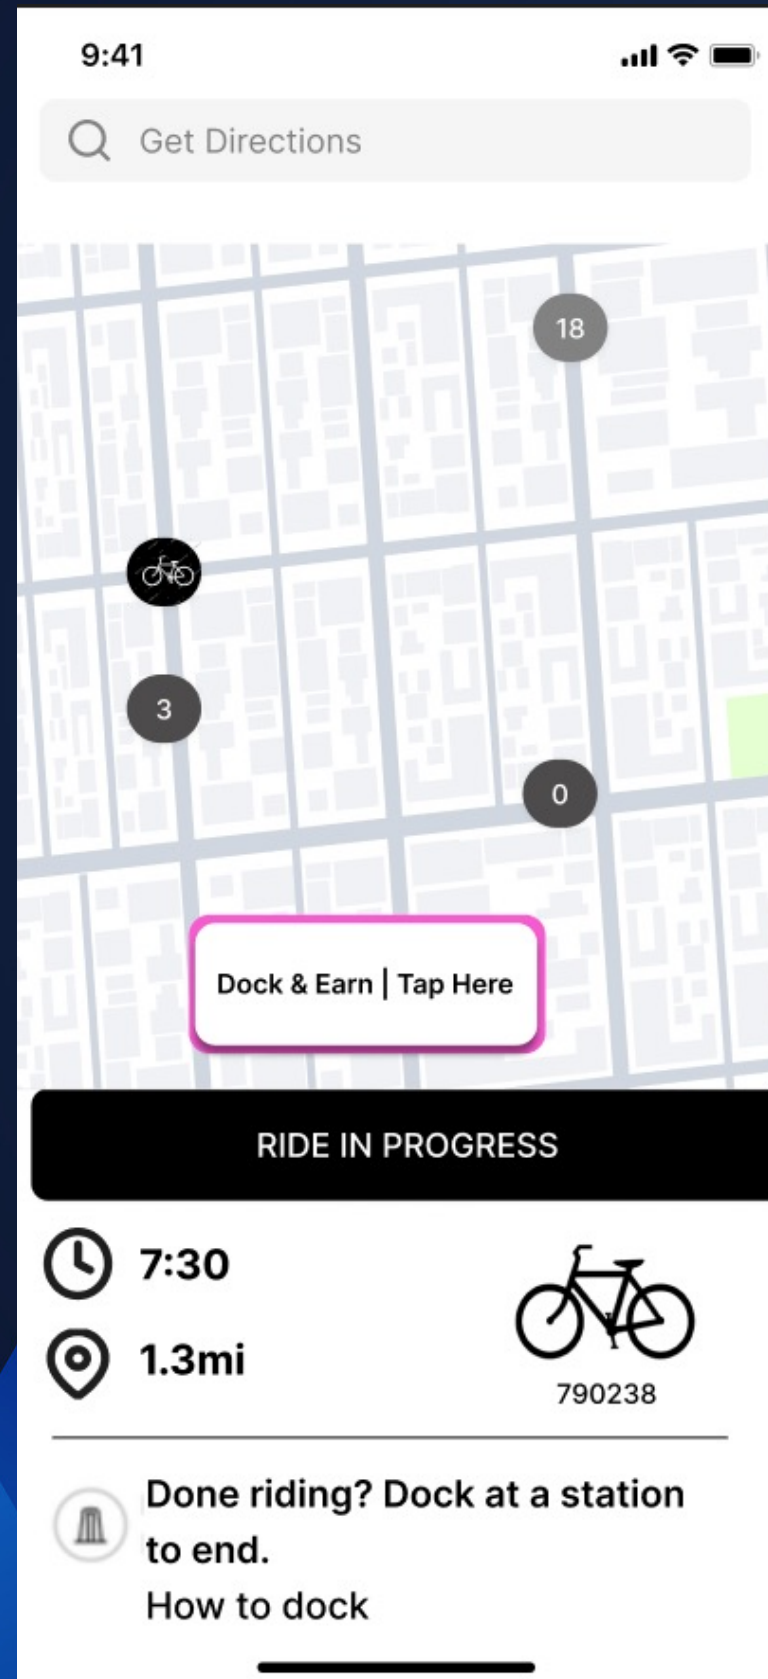

Suggests which stations to dock at, given a specific time and rewards users for doing so.

- 1) Users can **earn rewards** by leaving their bikes at stations with low bikes, encouraging app usage.
- 2) Using users to rebalance stations to help us meet our goal while minimizing need for intervention.

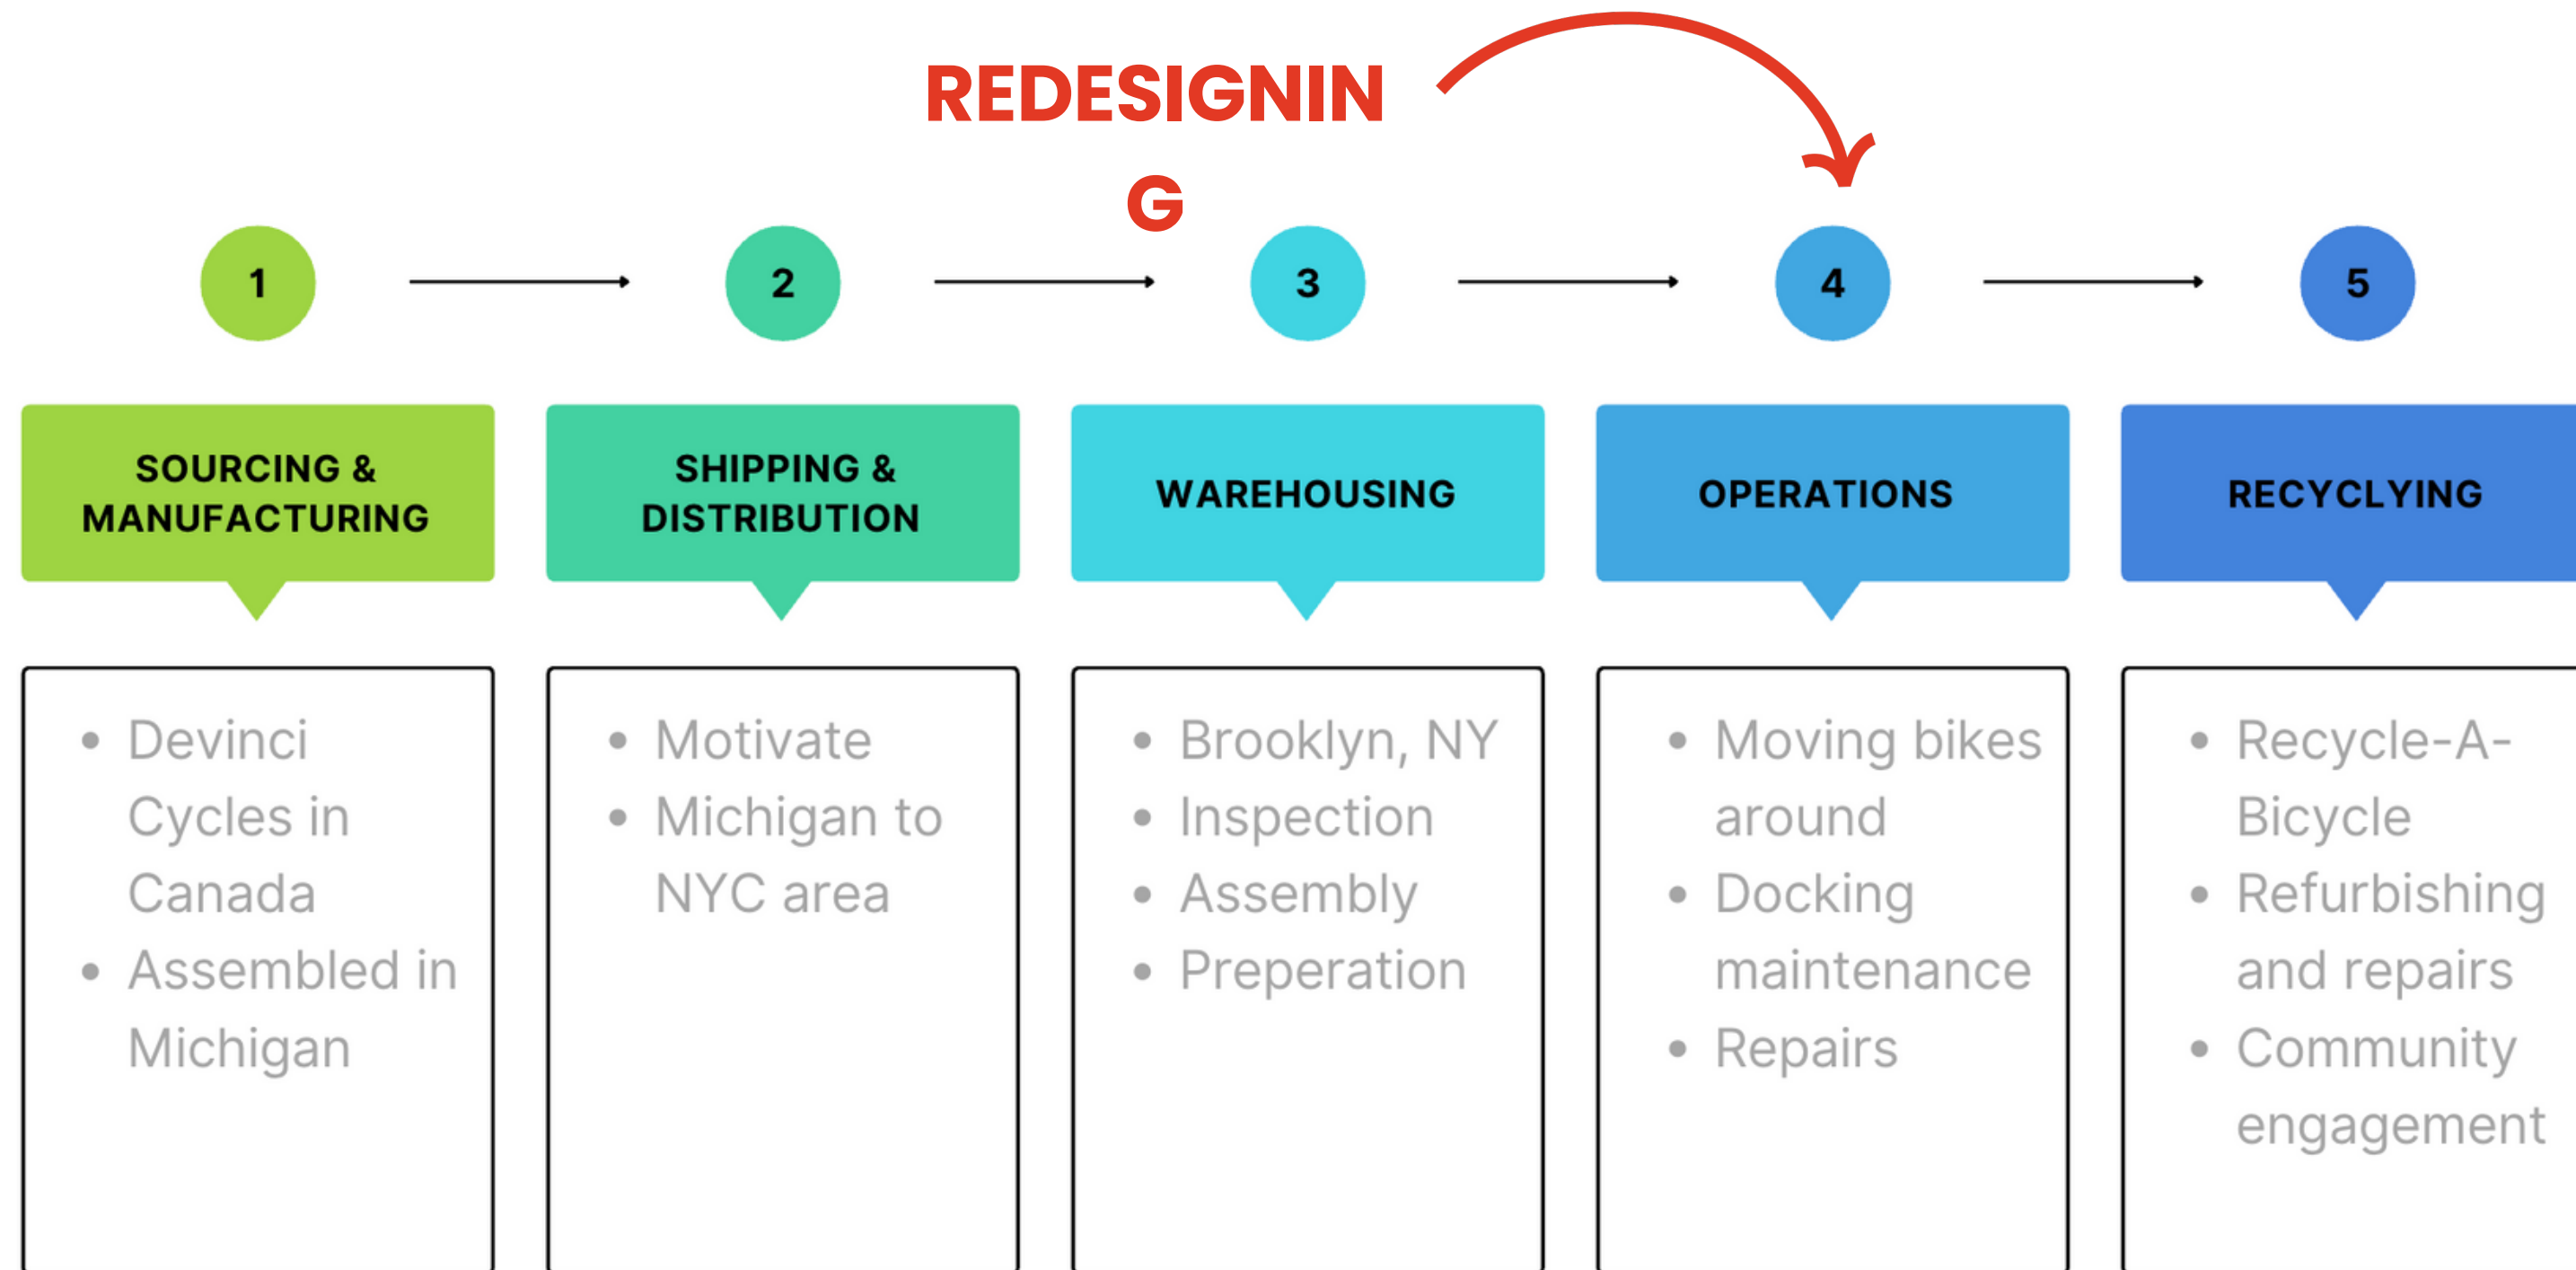

FRONT END MOCKUP

FRONT END MOCKUP

CITI BIKE SUPPLY CHAIN

SUPPLY CHAIN/LOGISTICS: REPAIRS

“Almost every bike has serious problems from poor brakes, complete lack of oil, crunching and grinding, screeching brakes, poorly calibrated continuous gears.”

- **Partner with local NYC bike repair shops to outsource repairs**
 - Redirect Lyft vans to nearby shops
 - Speeds up repair process
 - Assists with accessibility
 - Strengthen community ties, customer loyalty

IS THIS UP TO CODE?

NYC Administrative Code:

NYC DOT's Bike Share Program guidelines | Citi Bike Operational Agreement

- ✓ Operates under a contract with NYC DOT
- ✓ Adheres to requirements for docked systems
- ✓ DOT approval is required for expansion

NYC Administrative Code:

§ 10-157 & § 10-157.1

All bikes must comply with:

- Front and rear lights
- Reflective tires
- Proper braking system
- Audible signal (bell)

SECURING TRUST: DATA INTEGRITY

CITI BIKE'S NON NEGOTIABLES:

Data Collection:

- Collects user data only via apps and payment systems to facilitate operations.

Compliance Standards:

- 🛡️ *New York SHIELD Act*: Implement security measures to protect against unauthorized access and breaches
- 🔒 *GDPR Best Practices*: Adhere to maintain high privacy standards, regardless of location.
- 📶 *Lyft's Privacy by Design*: Integrate into all data systems to preemptively address privacy risks

CONCLUSION

- Creating a bolder and data-driven future for urban transportation
- Smarter Systems, Faster Growth, Smoother Rides
- Revolve enhances user engagement & opens doors to new revenue streams

**THANK
YOU**
